Student Poster Sessions

Binghamton Research Days Poster Presentations are scheduled to be held in person on April 29, 2022, at the Innovative Technologies Complex. The event is a chance for undergraduate and graduate students from all academic disciplines to showcase their research.

At Binghamton, we define undergraduate research as a mentor-supported inquiry, creative activity or scholarly investigation conducted by an undergraduate student that makes an original intellectual or creative contribution to the discipline. Original can be defined as a meaningful contribution by the student; it should be entirely or partially novel; it may reveal more questions than answers.

[Abstracts are due Friday, March 11, and should be submitted online.](#) Poster PDFs will be due April 14; you'll receive details about how to submit one after submitting your

abstract.

Posters should measure 48" inches (w) x 36 inches (h), and we recommend that you use one of our templates ([Top Logo](#), [Bottom Logo](#)).

Interested in experimenting with a different kind of poster format? There's a movement nationally toward what some call a "better poster," with emphasis on one key finding and a QR code where those who are interested in more detail can find background information. We invite participants to give this format a try, using [this template](#).
